

Ultra Clean
Room Systems

**We elevate
you to the
cleanest
environment**

Who are we?

ULTRA CLEAN ROOM SYSTEMS, based in Ankleshwar (Gujarat) started its journey in 2009, with Epoxy Flooring initially. In 2010, alongside the Flooring business, we started a new unit for Clean Room Products manufacturing, with an idea to provide turnkey solution of Clean Room Projects.

UCRS is endowed with young and expertized Managers, Engineers & Technicians, who are highly trained to deliver desired product with enhanced quality, conforming to the guidelines laid by WHO, USFDA, CGMP, TGA, etc. standards.

The Infrastructure is packed with all computerized System combining with State-of-Art Technology CNC machinery, top class powder coating line and on-site high pressure foaming and press machine, through which Superior and Quick service is available to the Customer.

We are leading manufacturer of Clean Room Doors, Modular Partition, walkable / non-walkable ceiling, Flush Type Window and various clean room equipments.

What do we stand for?

We aspire to be the India's supreme One-stop solution provider for various industrial sectors, by providing In-budget and gratifying experience to our customers.

What makes us Distinctive?

- Our ability to understand customer's desire
- Detailed demonstration of Layout/Plan
- Timely delivery
- Complete satisfaction within customer's budget
- Follow up and after-sale service
- Our team of Master engineers and Skilled Labor force

Applications

- Pharmaceuticals and Healthcare
- Drug and Medicine Manufacturing
- Electronic
- Semi-conductor
- Telecommunication
- Defense
- Food Processing
- Automotive

Door

Door lets you enter the Virtuous Environment

We at UCRS, provide wide range of Cleanroom compatible doors, in compliance with Standards and Design requirement of clean room / controlled environment. They are to avoid air from exiting the room.

The door has mechanically interlocked edges that add Durability and rigidity, making them appropriate for all kind of usage.

Specifications

- Completely flushed with partition systems.
- Customised as per the customer's requirement
- Heavy-duty structure for high durability
- Prevents bacterial or fungal growth
- Best-in-class door hardware
- Infill - Honey Comb Kraft, PUF (Polyurethane Foam), Rock Wool
- Sealed with food grade silicone sealant

Different types of Doors

- Scientific Door
- Clean Room Door
- Fire Rated Door
- Emergency Door
- Manual, Semi-automatic and Fully automatic Sliding Door

Accessories

- Auto Dropseal to prevent leakage
- Door closer as per customer's requirement
- Sealed with Silicone Gasket
- Interlocking system
- S.S. Kick-plate and Push-plate

Partition

Partitions are the essential structural ingredient in the formation of Cleanrooms.

UCRS Partitioning Systems are compatible in design and construction for ensuring easy installation and practical functionality while providing flexibility to interchange the panels with ease of portability.

Specifications

- Size in Width - 900mm, 1000mm, 1200mm
- Size in Height - 2500mm, 3000mm, 3500mm
- Sheet Thickness - 0.6 / 0.8 / 1.0 mm
- Panel Thickness - 50 / 60 / 80 / 100 mm
- Infill- PUF, Rockwool and Honeycomb kraft paper.
- Glazing- Double flush glazing with 5mm toughened glass on both sides within a stainless steel/ powder coated framing.
- Skin- GI Pre-Painted, GI Powder-Coated, SS
- In-built power socket and Magnehelic gauges
- In-built Return Air Riser
- Sealed with silicon Sealant

Ceiling Panels

A perfect ceiling makes everything look clean.

UCRS Ceiling system is designed not only to achieve its load bearing function, but to add clean single joints to create a sleek clean flush surface. Factory fabricated cutouts for light Fixtures and Diffusers makes installation easy on site. The ceiling is capable of supporting a variety of mechanical systems, accommodating lighting, sprinklers, HEPA filters, utilities and small equipment.

Specifications

- Size in Width - 900mm, 1000mm, 1200mm
- Panel Thickness - 50 mm, 60 mm, 80 mm
- Infill - PUF, Rockwool and Honeycomb kraft paper.
- Skin-GI Pre-Painted, GI Powder-Coated, SS
- Factory-made cut-outs (For HEPA, Diffusers, Light Fixtures and other Services.)
- In-built power socket and Magnehelic gauges
- In-built Return Air Riser
- Sealed with silicon Sealant

Lab furniture

Labs are home to delicate, huge and exorbitant equipments, and some highly reactive chemicals.

The UCRS series - the finest quality lab furniture provides a distinctive combination of strength and durability, with functionality and versatility. The dynamic fixtures is made as per the current demands of science. Our team boasts decades of experience in planning, designing and manufacturing to accomplish the project within given time and budget.

UCRS series advantage

- Fully welded steel construction provides top class durability.
- Enviro-friendly powder coating provides a highly chemical resistant finish.
- Dynamic engineering innovations and modular components allow numerous assembling combination, which fits every need.
- Our expertise team guides you through all the stages of development; from commissioning to training, ensuring results that are beyond expectations.

UCRS series selection

- Laboratory Furniture / Work-stations
- Laboratory Fume Hood
- Chemical Storage Cabinet
- Wall / Floor Mounted Cabinet
- Anti Vibration Table
- Industrial Lockers
- Fume Exhaust System
- Static and Dynamic Passbox
- Diverse range of accessories to choose as per requirement
